“Homoeopathy is one of the few medical specialities which carries no penalties – only benefits.”

- Yehudi Menuhin

“I have long been an ardent believer in the science of homoeopathy, and I feel happy that it has got now a greater hold in India than even in the land of its origin. It is not merely a collection.”

- Rabindranath Tagore

“Homoeopathy....cures a larger percentage of cases than any other method of treatment and is beyond doubt safer and more economical and most complete medical science.”

- Mahatma Gandhi

“Holistic Healthcare remains a very big attraction. Best of the doctors are moving towards homoeopathy. There's a mood to go towards stress free life from a stressful life.”

- Narendra Modi
